
Arithmeticity In The Theory Of Automorphic Forms

Mathematical Surveys And Monographs

arithmeticity of discrete subgroups containing ... - the margulis arithmeticity theorem was the resolution of a conjecture of selberg. in fact a. selberg, using tricky computations, was able to prove the arithmeticity of non-cocompact irreducible lattices Γ_0 when g is a product of copies of $sl(2,r)$ and $sl(2,c)$. in the early 90's a. selberg announced **arithmeticity in the theory of automorphic forms ...** - arithmeticity of discrete subgroups and structured mainly by using the theory of automorphic forms. the arithmeticity of a co-compact subgroup of a real semisimple-[\[pdf\]](#) edgar cayce - the sleeping prophet.pdf arithmeticity in the theory of automorphic forms arithmeticity in the theory of automorphic forms (mathematical surveys and monographs) goro **arithmeticity in the theory of automorphic forms - gbv** - chapter vii. arithmeticity of the critical values of zeta functions and eisenstein series of general types 219 27. the spaces of holomorphic eisenstein series 219 28. main theorems on arithmeticity in cases sp and ut 230 29. main theorems on arithmeticity in case ub 240 appendix 247 al. the series associated to a symmetric matrix and gauss sums ... **affine diffeomorphisms of translation surfaces: periodic ...** - affine diffeomorphisms of translation surfaces: periodic points, fuchsian groups, and arithmeticity eugene gutkin, pascal hubert, and thomas a. schmidt abstract. nous ´etudions des surfaces de translation ayant un grand groupe de diff´eomorphisms affines — les surfaces “pr´er´eseaux”. parmi celles-ci se trouvent **arithmeticity (or not) of monodromy - pdfsmanticscholar** - arithmeticity (or not) of monodromy peter sarnak april 23, 2013 in 1974 gri ths and schmid [1] asked whether monodromy groups of families of varieties acting on cohomology are arithmetic or not. the problem remains largely open, even for well known explicit examples. one case is that of the families of calabi-yau three-folds, which have ... **arithmeticity of discrete subgroups containing ...** - the celebrated arithmeticity theorem of margulis in [17] and [18] in the 70's tells us that an irreducible lattice Γ in a real semisimple algebraic group G with no compact factors and of real rank at least two is an arithmetic group. this means that there exists a real semisimple algebraic group H **arithmeticity for periods of automorphic forms wee teck ...** - arithmeticity for periods of automorphic forms 191 of $\pi_0(G_\infty) \times G(\mathbb{A}_f)$ -modules. wesaythat Π is a cohomological cuspidal automorphic representation ... **on a problem concerning arithmeticity of** - this was the first instance where the arithmeticity of irreducible lattices in higher rank (meaning that the real rank is at least 2) semisimple real algebraic groups, which was conjectured by selberg for non-uniform lattices and by piateski shapiro for uniform lattices, was settled (cf. [ti]). both conjectures were completely settled **arithmeticity and topology of smooth actions of higher ...** - arithmeticity and topology of smooth actions of higher rank abelian groups anatole katok 1) and federico rodriguez hertz 2) abstract. we prove that any smooth action of $z_{m-1}, m \geq 3$ on an m -dimensional manifold that preserves a measure such that all **rigidity and arithmeticity - homepageth.uic** - concerning the structure of lattices in semisimple lie groups: the arithmeticity theorem. this chapter is devoted to the description of related results and of the main objects involved. many of the notions used here will be introduced in more detail in subsequent chapters. definition.] let G be a locally compact group. a subgroup of G is called a ... **arithmeticity of totally geodesic lie foliations with ...** - relates to zimmer's arithmeticity theorem for the holonomy of a lie foliation since it shows that not just the holonomy but the foliation and the manifold are arithmetic if we consider the case of totally geodesic foliations. the proof of this result uses our previous work on actions of pseudoriemannian manifolds (see [7]) and builds on ... **arxiv:1706.02180v1 [math] 6 jun 2017** - recall that if h has $r\text{-rank}(h) \geq 2$, then by margulis's arithmeticity theorem every lattice Γ in h is arithmetic, i.e. there exists a number field k with ring of integers \mathcal{o} and the set of archimedean valuations v_∞ , an absolutely simple, simply connected k -group g and an epimorphism $\varphi: g = \prod_{v \in v_\infty} g(k_v) \mathcal{o} \rightarrow h$, such that **arithmeticity of hyperbolic 3-manifolds containing ...** - arithmeticity of 3-manifolds 5 2.3. proposition. let $m = h^3 =$ be a closed hyperbolic 3-manifold-some that m contains in nitely many totally geodesic surfaces. let l v and g be as above and assume that $\hat{\cdot}()$ $\hat{p}g$ **arithmeticity of certain symplectic hypergeometric groups ...** - arxiv:1208.6460v1 [math] 31 aug 2012 arithmeticity of certain symplectic hypergeometric groups sandip singh and t. n. venkataramana abstract. we give a sufficient condition on **arithmeticity of complex hyperbolic triangle groups** - arithmeticity of complex hyperbolic triangle groups matthew stover university of michigan stoverm@umich december 1, 2011 abstract complex hyperbolic triangle groups, originally studied by mostow in building the first nonarithmetic lattices in $pu(2;1)$, are a natural generalization of the classical triangle groups. a theorem of takeuchi
